NEW YORK, May 3, 2005—Loews Corporation (NYSE:LTR;CG) today reported consolidated net income (including both the Loews Group and Carolina Group) for the 2005 first quarter of \$339.7 million, compared to \$44.9 million in the 2004 first quarter. The Company will restate its financial results for prior years to correct CNA's accounting for several reinsurance contracts, primarily with a former affiliate, and CNA's equity accounting for that affiliate. The Company will file a Form 10-K/A for 2004 reflecting the effects of the restatement, which will reduce shareholders' equity as of December 31, 2004 by \$27.3 million, or 0.2%.

Financial Restatement

The Company will restate its financial results for prior years to correct CNA's accounting for several reinsurance contracts, primarily with a former affiliate, and CNA's equity accounting for that affiliate. The impact of this revised accounting results in a reduction to shareholders' equity as of December 31, 2004 of \$27.3 million, or 0.2%, and an increase in net income attributable to Loews common stock of \$1.3 million, or \$0.01 per Loews common share, for the three months ended March 31, 2004.

The Company will file a Form 10-K/A for 2004 reflecting the effects of the restatement as follows:

This restatement is based upon reconsideration of CNA's accounting for its former equity interest in Accord Re Ltd. ("Accord"), and for several reinsurance contracts with Accord, but also includes two reinsurance agreements with unaffiliated parties that are immaterial in the aggregate. A subsidiary of The Continental Corporation ("TCC") acquired a 49% ownership interest in Accord, a Bermuda company, in 1989 upon Accord's formation. TCC also provided capital support to Accord through a guarantee from a TCC subsidiary. TCC was acquired by CNA in 1995.

Reinsurance relationships with Accord involved both property and casualty assumed reinsurance risks that were written by TCC subsidiaries and 100% ceded to Accord or reinsured from other cedents by Accord. Stop-loss protection in relation to those risks was obtained by Accord from a wholly owned TCC subsidiary.

All of CNA's reinsurance agreements with Accord relating to property risks were commuted as of year-end 2001, leaving six reinsurance agreements with Accord relating to casualty risks outstanding at that time. As of March 31, 2005 CNA provides no capital support to and has no ownership interest in Accord. During the period of CNA's minority ownership, Accord also maintained reinsurance relationships with reinsurers unaffiliated with CNA.

As previously reported CNA continues to respond to various subpoenas, interrogatories and other requests for information received from state and federal regulatory authorities relating to on-going insurance industry investigations of non-traditional insurance products, including finite reinsurance. As also previously reported, CNA agreed to undergo a state regulatory financial examination of the Continental Casualty Company and its insurance subsidiaries as of December 31, 2003. Such review includes examination of certain of the finite reinsurance contracts entered into by CNA and whether such contracts possess sufficient risk transfer characteristics necessary to qualify for accounting treatment as reinsurance. In the course of complying with these requests CNA conducted a comprehensive review of its finite reinsurance relationships, including contracts with Accord. It is possible that CNA's analyses of or accounting treatment for other finite reinsurance contracts could be questioned or disputed in the context of the referenced state regulatory examination, and further restatements of the Company's financial results are possible as a consequence, which could have a material adverse impact on the Company's financial condition.

At March 31, 2005, the book value per share of Loews common stock was \$66.44, compared to \$66.56 at December 31, 2004. The decline in book value per share reflects reduced unrealized gains in CNA's fixed maturities portfolio and dividends paid to shareholders offsetting net income for the first quarter of 2005.

At March 31, 2005, there were 185,637,349 shares of Loews common stock outstanding and 68,027,309 shares of Carolina Group stock outstanding. Depending on market and other conditions, the Company from time to time purchases shares of its, and its subsidiaries', outstanding common stock in the open market or otherwise.

The Company has two classes of common stock, Carolina Group stock, a tracking stock intended to reflect the economic performance of a group of the Company's assets and liabilities, called the Carolina Group, principally consisting of the Company's subsidiary Lorillard, Inc. and Loews common stock, representing the economic performance of the Company's remaining assets, including the interest in the Carolina Group not represented by Carolina Group stock. At March 31, 2005, the outstanding Carolina Group stock represents a 39.22% economic interest in the economic performance of the Carolina Group.
