PROXY STATEMENT

We are providing this Proxy Statement in connection with the solicitation by our Board of Directors of proxies to be voted at our Annual Meeting of Shareholders, which will be held on May 12, 2009. We expect to mail proxy materials to our shareholders on or about March [], 2009. Our mailing address is 667 Madison Avenue, New York, New York 10065-8087. Please note that throughout this Proxy Statement we refer to Loews Corporation as “we,” “us,” “our,” “Loews” or the “Company.”

Voting

As of March 16, 2009, the record date for determination of shareholders entitled to notice of and to vote at the meeting, there were [] shares of our Common Stock outstanding. Each outstanding share of our Common Stock is entitled to one vote on all matters that may come before the meeting. All properly executed proxies in the accompanying form received by us prior to the meeting will be voted at the meeting. You may revoke your proxy at any time before it is exercised by giving notice in writing to our Corporate Secretary, by granting a proxy bearing a later date or by voting in person. Shares with respect to which a broker indicates that it does not have authority to vote will be considered “broker non-votes” and will not be counted as present at the meeting.

Majority Vote Standard for Election of Directors Our by-laws provide that a nominee for director in an uncontested election such as this one will be elected to the Board if all votes cast for that nominee’s election exceed the votes cast against his or her election. Shares that are voted to abstain with respect to any one or more nominees and broker non-votes will not be counted and will have no effect on the outcome of the voting for directors. In the event that an incumbent nominee is not re-elected, the Board will require that director to tender his or her resignation and will establish a committee to consider whether to accept or reject that resignation. The Board will act on the committee’s recommendation and publicly disclose its decision.

Votes Required to Adopt Other Proposals. The affirmative vote of shares representing a majority of our Common Stock outstanding and entitled to vote is required to approve the proposal to amend our charter to be voted on at the meeting. The affirmative vote of shares representing a majority of the votes cast by the holders of shares present and entitled to vote is required to approve each of the other proposals to be voted on at the meeting. Shares that are voted to abstain on these matters will be considered present at the meeting, but since they are not affirmative votes for a proposal they will have the same effect as votes against the proposal. Broker non-votes have the same effect as a vote against the proposal to amend our charter and will have no effect on the outcome of the voting for the other proposals.

Our Board of Directors has adopted a policy of confidentiality regarding the voting of shares. Under this policy, all proxies, ballots and voting tabulations that identify how an individual shareholder has voted at the meeting will be kept

confidential from us, except where disclosure is required by applicable law, a shareholder expressly requests disclosure, or in the case of a contested proxy solicitation. Proxy tabulators and inspectors of election will be employees of our transfer agent or another third party and not our employees.

Director Independence

Our Board of Directors has determined that the following directors, constituting a majority of our directors and nominees, are independent under the listing standards of the New York Stock Exchange: Ann E. Berman, Joseph L. Bower, Charles M. Diker, Paul J. Fribourg, Walter L. Harris, Philip A. Laskawy, Ken Miller and Gloria R. Scott. We refer to these directors in this Proxy Statement as our “Independent Directors.” Our Board considered all relevant facts and circumstances and applied the independence standards described below in determining that none of our Independent Directors has any material relationship with our subsidiaries or us.

Our Board has established the following standards to assist it in determining director independence. A director would not be considered independent if any of the following relationships exists:

- during the past three years the director has been an employee, or an immediate family member has been an executive officer, of the Company;
- the director or an immediate family member received, during any twelve month period within the past three years, more than \$120,000 in direct compensation from the Company, excluding director and committee fees, pension payments and certain forms of deferred compensation;
- the director is a current partner or employee or an immediate family member is a current partner of a firm that is the Company’s internal or external auditor, or an immediate family member is a current employee of such a firm and personally works on the Company’s audit, or, within the last three years, the director or an immediate family member was a partner or employee of such a firm and personally worked on the Company’s audit within that time;
- the director or an immediate family member has at any time during the past three years been employed as an executive officer of another company where any of the Company’s present executive officers at the same time serves or served on that company’s compensation committee; or

the director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three years, exceeds the greater of \$1 million, or 2% of the other company's consolidated gross revenues.

In making its determination with respect to Walter L. Harris, our Board considered the commercial relationship between certain surety and insurance subsidiaries of CNA and Tanenbaum-Harber Co., Inc., of which Mr. Harris is an executive officer and shareholder, and certain of its affiliates, and determined that Mr. Harris meets all of the requirements described above for Independent Directors and does not have a material relationship with us. Please read "Transactions with Related Persons," below for more information concerning Mr. Harris's relationship with CNA.

Committees of the Board

Our Board of Directors has a standing Audit Committee, Compensation Committee, Nominating and Governance Committee, Executive Committee and Finance Committee. Our Audit Committee, Compensation Committee and Nominating and Governance Committee have written charters which can be found on our website at www.loews.com and are available in print to any shareholder who requests a copy by writing to our Corporate Secretary.

Audit Committee. The primary function of our Audit Committee is to assist our Board of Directors in fulfilling its responsibility to oversee management's conduct of our financial reporting process, including review of our financial reports and other financial information, our system of internal accounting controls, our compliance with legal and regulatory requirements, the qualifications and independence of our independent auditors and the performance of our internal audit staff and independent auditors. Our Audit Committee has sole authority to appoint, retain, compensate, evaluate and terminate our independent auditors and to approve all engagement fees and terms for our independent auditors.

The members of our Audit Committee are Walter L. Harris (Chairman), Ann E. Berman, Joseph L. Bower, Charles M. Diker, Paul J. Fribourg, Philip A. Laskawy, Ken Miller and Gloria R. Scott, each of whom is an Independent Director and satisfies the additional independence and other requirements for Audit Committee members provided for in the listing standards of the New York Stock Exchange. Our Board has determined that each of Ms. Berman and Mr. Laskawy is a "financial expert" under the rules of the Securities and Exchange Commission and that Mr. Laskawy's simultaneous service on the audit committees of three public companies, in addition to our Audit Committee, does not impair his ability to effectively serve on our Audit Committee.

Compensation Committee. The primary function of our Compensation Committee is to assist our Board of Directors in discharging its responsibilities relating to compensation of our executives. These responsibilities include reviewing our general compensation philosophy for executive officers, overseeing the development and implementation of compensation programs for executive officers and reviewing compensation levels, including incentive and equity-based compensation, for executive officers, directors and Board committee members. Our Compensation Committee determines and approves compensation for our executive officers and administers our incentive and equity-based compensation plans. In doing so, it considers recommendations made by our Chief Executive Officer meeting in executive session with the Committee. Neither our Chief Executive Officer nor any of our other executive officers participates in our Compensation Committee's final deliberations on compensation matters. The members of our Compensation Committee are Joseph L. Bower (Chairman), Charles M. Diker and Paul J. Fribourg, each of whom is an Independent Director.

Nominating and Governance Committee. The primary functions of our Nominating and Governance Committee are to identify individuals qualified to become members of our Board of Directors, recommend to our Board a slate of director nominees for election at our next annual meeting of shareholders and develop and recommend to our Board a set of corporate governance principles. These corporate governance principles are set forth in our Corporate Governance Guidelines which can be found on our website at www.loews.com and are available in print to any shareholder who requests a copy by writing to our Corporate Secretary. The members of our Nominating and Governance Committee are Paul J. Fribourg (Chairman), Joseph L. Bower, Walter L. Harris, Ken Miller and Gloria R. Scott, each of whom is an Independent Director.

Director Nominating Process

In evaluating potential director nominees, including those identified by shareholders, for recommendation to our Board of Directors, our Nominating and Governance Committee seeks individuals with talent, ability and experience from a wide variety of backgrounds to provide a diverse spectrum of experience and expertise relevant to a diversified business enterprise such as ours. A candidate should represent the interests of all shareholders, and not those of a special interest group, have a reputation for integrity and be willing to make a significant commitment to fulfilling the duties of a director. Our Nominating and Governance Committee will screen and evaluate all recommended director nominees based on the criteria set forth above, as well as other relevant considerations. Our Nominating and Governance Committee will retain full discretion in considering its nomination recommendations to our Board.

Executive Sessions of Non-Management Directors

Our non-management directors meet in regular executive sessions without management participation. The Chairman of our Nominating and Governance Committee, currently Paul J. Fribourg, serves as the presiding director at these meetings.

Director Attendance at Meetings

During 2008 there were nine meetings of our Board of Directors, six meetings of our Audit Committee, four meetings of our Compensation Committee and three meetings of our Nominating and Governance Committee. During 2008, each of our directors attended not less than 75% of the total number of meetings of our Board of Directors and committees of our Board on which that director served during 2008. Our Board encourages all directors to attend our annual meetings of shareholders, but recognizes that circumstances may prevent attendance from time to time. All of our directors then serving attended our 2008 Annual Meeting of Shareholders.

2008 Director Compensation

Our non-management directors receive a retainer of \$18,750 and 1,500 stock appreciation right (“SAR”) awards per quarter. In addition, members of our Audit Committee are paid \$2,000, and members of our Compensation Committee and Nominating and Governance Committee are paid \$1,000, for each committee meeting attended. AUDIT COMMITTEE REPORT

As discussed above under the heading "Committees of the Board – Audit Committee," the primary role of the Board's Audit Committee is to oversee the Company's financial reporting process and manage its relationship with the independent auditors. In fulfilling its responsibilities, the Audit Committee has reviewed and discussed the Company's audited financial statements for the year ended December 31, 2008 with the Company's management and independent auditors. The Audit Committee has also discussed with the Company's independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, "Communication with Audit Committees," as amended. In addition, the Audit Committee has discussed with the independent auditors their independence in relation to the Company and its management, including the matters in the written disclosures provided to the Audit Committee as required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditors' communications with the Audit Committee concerning independence, and has determined that the provision of non-audit services provided by the auditors is compatible with maintaining the auditors' independence. For more information about services provided by the auditors, please read "Audit Fees and Services," below.

The members of the Audit Committee rely without independent verification on the information provided to them by management and the independent auditors and on management's representation that the Company's financial statements have been prepared with integrity and objectivity. They do not provide any expert or special assurance as to the Company's financial statements or any professional certification as to the independent auditors' work. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has applied appropriate accounting and financial reporting principles or internal controls and procedures, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the Company's financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact "independent."

Based upon the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, which has been filed with the Securities and Exchange Commission.

COMPENSATION DISCUSSION AND ANALYSIS

Overview. The objective of our executive compensation program is to attract and retain highly qualified executive officers and motivate them to provide a high level of performance for our shareholders. To meet this objective, we have established a compensation policy for executive officers which combines elements of base salary and cash and stock based incentive compensation, as well as benefits. In selecting these elements of executive compensation, we have considered our historical compensation policies as they have evolved over the years, national surveys of executive compensation at comparable sized companies and the executive compensation programs of various companies engaged in businesses similar to ours and our principal subsidiaries (although we do not benchmark our compensation to any particular group of companies), as well as applicable tax and accounting impacts of executive compensation.

The principal components of compensation for our Named Executive Officers are:

- base salary;
- cash-based incentive compensation awards;
- grants of stock appreciation rights; and
- retirement, medical and related benefits.

Our compensation program is intended to align the interests of our senior executives with those of our shareholders with a goal of increasing shareholder value and reasonably rewarding superior performance which supports that goal. In establishing the aggregate amount of compensation for each Named Executive Officer, we do not rely on formula-driven plans which could result in unreasonably high compensation levels. Instead, the primary factor in setting compensation is an evaluation of the individual's performance in the context of our financial performance and compensation policies. The Compensation Committee also reviews and considers compensation levels and practices as shown in the surveys and other materials referred to above. Based on these factors, we determine an overall level of cash compensation, a portion of which is to be paid as base salary and the balance of which would be incentive-based, and stock-based awards, which are described in further detail below. Although the Compensation Committee reviews base salary and stock based awards annually, the primary variable in our compensation program for Named Executive Officers has been the establishment of incentive compensation awards.

Our Chief Executive Officer, after consulting with the other members of the Office of the President, reviews with the Compensation Committee the performance of each Named Executive Officer and each other executive officer and makes a recommendation to the Compensation Committee with respect to their annual compensation, including the setting of parameters for incentive compensation awards and stock based awards. In accordance with its charter, the Compensation Committee then makes the final determination regarding the compensation, including base salary, cash-based incentive compensation and grants of stock appreciation rights, for our Chief Executive Officer and each of the other Named Executive Officers, as well as all of our executive officers.

Base Salary. As a result of performance reviews and other factors described above, and the impact of limits on the deductibility of compensation described below, the annual base salary of each of our Named Executive Officers has been effectively limited to approximately \$1 million. This \$1 million limit reflects principally the impact of provisions of the Internal Revenue Code which generally limit the amount of compensation we may deduct for federal income tax purposes to \$1 million per Named Executive Officer per year, except to the extent that the compensation is considered to be "performance-based." Our policy has been to maximize the deductibility of compensation to the extent practicable. Accordingly, we have designed our performance-based incentive compensation plan and stock-based plan described below so that compensation under those plans will be deductible.

Incentive Compensation Awards. A significant portion of compensation of our Named Executive Officers comes from awards under our Incentive Compensation Plan for Executive Officers ("Incentive Compensation Plan"). This element of our compensation program makes a significant portion of the executive's annual compensation dependent on

the Company's attainment of a pre-determined level of net income. Under the Incentive Compensation Plan the Compensation Committee employs both quantitative factors - our attainment of the performance goal discussed below, and qualitative factors - the Compensation Committee's assessment of the individual's performance.

As more fully described below, under the terms of the Incentive Compensation Plan, the Compensation Committee in granting awards establishes a target amount and maximum award for each participant and retains full negative discretion to reduce awards despite the fact that funds may be available in the performance bonus pool. This allows the Compensation Committee to review and evaluate each participant's performance in light of the year end results which, we believe, serves to discourage excessive risk taking. We believe the features of the Incentive Compensation Plan help align the interests of our executive officers with those of our shareholders.

Under the Incentive Compensation Plan, during the first quarter of each year our Compensation Committee establishes an annual performance bonus pool, expressed as a percentage of our Performance Based Income for that year. Performance Based Income is a term defined in the Incentive Compensation Plan to mean our consolidated net income as adjusted by the Compensation Committee in its sole discretion to take into account specific factors that may impact our business generally which the Compensation Committee deems reasonable and appropriate to exclude or include. Among other things, the Compensation Committee may take into account realized and unrealized gains and losses, accounting changes, the potential impact of acquisitions and dispositions, charges relating to litigation, charges relating to reserve strengthening and adverse development associated with prior accident years at CNA, the impact of catastrophes and the impact of changes in legislation or regulation.

After establishing the performance bonus pool for the year, the Compensation Committee then allocates a portion of that pool (expressed as a percentage of Performance Based Income) to each of the Named Executive Officers and other executive officers who are participating in the Incentive Compensation Plan and are eligible to receive incentive compensation awards. The Compensation Committee establishes a target award (expressed as a dollar amount) for each participant, based on its assessment of the individual's expected performance of his duties, with the intention that the incentive compensation award will not exceed the target award (even if the objective formula permits payment of an award in excess of the established target) except based on the Compensation Committee's discretion. The Compensation Committee also establishes, for each participant, a maximum award (expressed as a dollar amount) to potentially award a bonus amount that exceeds the pre-established target award based on the Compensation Committee's discretion. In addition, in accordance with the Incentive Compensation Plan, it has been the practice of the Compensation Committee to retain negative discretion in the payment of awards, which allows the Committee to reduce or eliminate any award at the Committee's discretion.

Once Performance Based Income for the year has been determined, typically in February of the following year, the Compensation Committee will review and re-assess each participant's performance for such year and, based upon such review and re-assessment, will award incentive compensation out of each executive's allocated percentage of the performance bonus pool. Based on such review and assessment, the Compensation Committee, in its discretion, will determine whether to award incentive compensation that meets or exceeds the target award (up to the maximum award established for that individual) or that is lower than the target award.

For 2008, the Compensation Committee established a performance bonus pool of 4% of Performance Based Income, and determined that Performance Based Income would mean our consolidated net income, without taking into account the impact of several items. In making this determination, the Compensation Committee concluded that the impact of these items would not be appropriate in measuring performance, but, by reserving to itself the ability to exercise negative discretion to reduce an award otherwise payable, the Compensation Committee in effect retains the ability to take these items, and any other factors it deems relevant, into account in awarding incentive compensation. The items identified for 2008 were:

- The effect of accounting changes;
- Net losses attributed to the impairment of goodwill;
- Net losses attributed to any charges resulting from application of the Full Cost Ceiling Limitation in relation to valuation of proved reserves at our subsidiary, HighMount Exploration and Production, LLC;

- Realized gains and losses;
- Charges relating to reserve strengthening and adverse dividend or premium development at CNA associated with accident years prior to 2000 related to claims within a limited number of claim categories;
- Catastrophe losses of CNA in excess of CNA's 2008 budgeted amount, but not less than such budgeted amount;
- Any gain or loss on disposal of discontinued operations (but not income from operations of the discontinued business) resulting from the exchange of Lorillard, Inc. common stock for our Common Stock in the 2008 spin-off of Lorillard, Inc.; and
- Charges relating to the disposition, by judgment or settlement, of smoking and health related litigation, excluding litigation related to filter cases.

After giving effect to these adjustments, 2008 Performance Based Income was approximately 42% of consolidated net income for the year.

Following determination of our consolidated net income and Performance Based Income for 2008, the Compensation Committee granted incentive compensation awards under the Incentive Compensation Plan at the target amounts established at the beginning of the year. As a result, the Compensation Committee granted awards to our executive officers which amounted to approximately 17% of the total amount available for award under the Incentive Compensation Plan. The Compensation Committee determined, for each Named Executive Officer, to neither increase any award above the target, nor to reduce any award below the target. This was determined by the Compensation Committee in executive session following a meeting with our Chief Executive Officer. The awards under this Plan for each of the Named Executive Officers are included in the column entitled "Non-Equity Incentive Plan Compensation" on the Summary Compensation Table, below.

Compensation under the Incentive Compensation Plan meets the requirements of the Internal Revenue Code for the deductibility for federal income tax purposes.

Stock-Based Awards. The third principal element of our compensation policy for Named Executive Officers is stock based awards under our Stock Option Plan. The value of awards under our Stock Option Plan is directly correlated to our performance as measured by the price of our Common Stock over the long-term. These awards only have value if, and to the extent that, the price of our Common Stock in the future exceeds the price on the date awards are granted. In addition, unlike base salary and incentive compensation awards, which are earned and paid based on the annual performance of the individual and the Company, awards under the Stock Option Plan generally vest over a period of four years and have a term of ten years. As a result, these awards recognize performance over a longer term and encourage executives to continue their employment with the Company. All of these elements further serve to align the executive's interest with those of our shareholders.

Since the establishment of the Stock Option Plan in 2000, it has been our policy not to increase the number of options or rights awarded to our Named Executive Officers each year (other than to adjust for stock splits), and the total number of options and rights issued to all employees who participate in the Plan has increased only modestly during this period.

Our practice has been to consider an annual award in January of each year, but to grant awards in four increments over the year, the first grant being made on the date of the Compensation Committee meeting in January at the time the award is established, and the following three grants being made on the last business day of March, June and September of the year. Each grant is made at an exercise or strike price equal to the average of the high and low sales prices of our Common Stock on the trading day immediately preceding the date of grant. Thus the Compensation Committee knows the exercise or strike price of grants made at its January meeting, but the exercise or strike price for the three subsequent grants is based on our Common Stock price at a future date. We believe that this practice is fair and reasonable to the individual executive and to the Company and its shareholders since it minimizes the impact that any particular event could have on the exercise or strike price of awards.

Compensation under the Stock Option Plan meets the requirements of the Internal Revenue Code for the deductibility for federal income tax purposes.

Employment Agreements. It has been our practice to maintain employment agreements with each member of the Office of the President: James S. Tisch, Andrew H. Tisch and Jonathan M. Tisch. Consistent with our compensation policies and our goal of maximizing the deductibility of the compensation for federal income tax purposes, base salary under each employment agreement has been limited to \$975,000 per annum for each individual. The agreements provide that each individual shall participate in our Incentive Compensation Plan; however, the amount of any award which may be granted remains subject to the discretion of the Compensation Committee. In February 2009, the employment agreement with each of the members of the Office of the President was extended for an additional term of one year, to expire March 31, 2010. Our employment agreements with the members of the Office of the President contain no provision for severance on termination, or payment upon a change in control, nor do such agreements require us to provide any perquisites. We have no employment or other agreement relating to severance or payment upon a change of control with any of our other Named Executive Officers. Information concerning automobile related perquisites provided to certain Named Executive Officers is provided in the Summary Compensation Table, below.

Employee Benefits. Our Company's Named Executive Officers also participate in benefit programs available to salaried employees generally, including our Employees Savings Plan under Section 401 (k) of the Internal Revenue Code, Retirement Plan and Benefit Equalization Plan. In addition, from time to time we have provided one or more Named Executive Officers with unfunded supplemental retirement benefits pursuant to the Supplemental Retirement Agreements that are described under the heading "Pension Plans" below. No supplemental retirement benefits were granted in 2008.

Share Ownership Guidelines. Although we have not adopted any share ownership guidelines for our executive officers, we note that the members of the Office of the President own significant amounts of our Common Stock.

(1) These amounts represent awards granted under our Incentive Compensation Plan. The target amount of each award was authorized for payment by our Compensation Committee in February 2009 and included in the Summary Compensation Table above under the heading “Non-Equity Incentive Plan Compensation.” Awards under our Incentive Compensation Plan are not subject to thresholds, but instead consist of an amount equal to a proportion of that percentage of our Performance Based Income established by our Compensation Committee as our annual performance goal, subject to the target and maximum amounts set forth on the table above. Please read our “Compensation Discussion and Analysis” above, under the heading “Incentive Compensation Awards,” for more information concerning awards under our Incentive Compensation Plan.

(2) These amounts represent awards of SARs granted under our Stock Option Plan. In accordance with its practice, in 2008 our Compensation Committee established an annual award in January authorizing the grant of SARs in four increments over the year. These SARs vest with respect to 25% of the total number of securities underlying each annual award on an annual basis commencing on the anniversary of the date our Compensation Committee took action to authorize the awards. Please read our “Compensation Discussion and Analysis” above, under the heading “Stock Based Awards,” for more information concerning awards under our Stock Option Plan.

(3) The exercise prices per share shown were calculated in accordance with our Stock Option Plan by averaging the high and low sales prices of our Common Stock as traded on The New York Stock Exchange on the business day immediately preceding the grant date.

The following table shows information provided by Diamond Offshore regarding grants to Mr. J.S. Tisch under Diamond Offshore's stock option plan during the year ended December 31, 2008.

(1) These amounts represent awards of SARs granted to Mr. J.S. Tisch by Diamond Offshore under its stock option plan. In accordance with its practice, in 2008 the incentive compensation committee of Diamond Offshore's board of directors established an annual award in January authorizing the award of SARs to its directors and executive officers, including Mr. J.S. Tisch, in four increments over the year. Each SAR granted to Mr. J.S. Tisch prior to October 2008 and reported above vests and becomes exercisable with respect to 25% of its underlying securities per year over the first four years of its term. Each SAR granted to Mr. J.S. Tisch from and after October 2008 and reported above vested and become exercisable with respect to 100% of its underlying securities on the date it was granted.

(2) The exercise prices per share were calculated in accordance with Diamond Offshore's stock option plan by averaging the high and low sales prices of Diamond Offshore's common stock as traded on The New York Stock Exchange on the business day immediately preceding the grant date.

The following table shows information regarding awards granted to each of our Named Executive Officers under our Stock Option Plan that were outstanding as of December 31, 2008. All awards with expiration dates prior to January 2016 represent stock options, and all awards with expiration dates during or after January 2016 represent SARs.

Pension Plans

We provide a funded, tax qualified, non-contributory retirement plan for salaried employees, including executive officers (our "Retirement Plan"). Tax qualified retirement plans, such as our Retirement Plan, are subject to limitations under the Internal Revenue Code on the benefits they may provide. Accordingly, we also provide an unfunded, non-qualified, non-contributory Benefit Equalization Plan (our "Benefit Equalization Plan") which provides for the accrual and payment of benefits which are not available under our Retirement Plan as a result of these limitations.

Our Retirement Plan is structured as a cash balance plan. A cash balance plan is a form of defined benefit pension plan in which the value of each participant's benefit is expressed as a nominal cash balance account established in the name of the participant. Under the cash balance plan, we increase each participant's nominal account annually by a "pay-based credit" based on a specified percentage of annual earnings (based on the participant's age or years of service) and an "interest credit" based on a specified interest rate, which we set annually for all participants. At retirement or termination of employment, a vested participant is entitled to receive the cash balance account in a lump sum or to convert the account into a monthly annuity. Compensation covered under our Retirement Plan consists of salary paid by us and our wholly owned subsidiaries, other than HighMount Exploration and Production, LLC, included under the heading "Salary" in the Summary Compensation Table above, plus the value of benefits awarded under our flexible benefits plan and included under the heading "All Other Compensation" in the Summary Compensation Table above. In addition, awards under our Incentive Compensation Plan are deemed compensation for purposes of our Benefit Equalization Plan. Pension benefits are not subject to reduction for Social Security benefits or other amounts.

Participants in our Retirement Plan who met certain age and years of service requirements at January 1, 1998 (the year that our Retirement Plan was converted into a cash balance plan) are entitled to a minimum retirement benefit ("Minimum Benefit") equal to the benefit they would have earned under our Retirement Plan before its conversion to a cash balance plan. This Minimum Benefit is based upon the highest average annual salary during any period of five consecutive years of the ten years immediately preceding retirement and years of credited service with us. The information set forth in the "Pension Benefits" table below with respect to Messrs. J. S. Tisch, A.H. Tisch and J.M. Tisch reflects this Minimum Benefit.

We also maintain a supplemental retirement account for each of Messrs. Keegan, J.S. Tisch, A.H. Tisch and J.M. Tisch, pursuant to supplemental retirement agreements with each such individual ("Supplemental Benefit"). We credit each such nominal account annually with the interest credit established under our Retirement Plan, and the accounts of Messrs. J.S. Tisch, A.H. Tisch and J.M. Tisch with the pay-based credit established under our Retirement Plan. Upon retirement, each such Named Executive Officer will receive the value of his account in the form of an annuity or, subject to certain conditions, in a single lump sum payment.

The following table shows information regarding pension benefits accrued for and paid to each of our Named Executive Officers as of December 31, 2008.

Deferred Compensation

The following table shows information regarding compensation deferred by Mr. Edelson during 2008 on a non-qualified basis pursuant to our Deferred Compensation Plan. Under this plan, employees earning in excess of \$100,000 per year may defer up to ten percent of their base salaries for a period of not less than three years, or until they are no longer employed by us. Deferred amounts are maintained by us in an interest bearing account. Upon electing to participate in this plan each year, each participating employee must choose the amount to be deferred and the duration of the deferral; whether to receive distributions of deferred amounts in a single payment or in equal annual installments over any period of time up to 15 years; and an interest rate from a selection of short-term and long-term rates established in accordance with the plan's requirements. None of our other Named Executive Officers deferred compensation during 2008.

TRANSACTIONS WITH RELATED PERSONS

It is our policy that any transaction, regardless of the size or amount, involving us or any of our subsidiaries in which any of our directors, director nominees, executive officers, principal shareholders or any of their immediate family members has had or will have a direct or indirect material interest, be reviewed and approved or ratified by our Audit Committee, without the participation of any member who may be involved in the transaction. All such transactions are submitted to our General Counsel for review and reported to our Audit Committee for its consideration. In each case, the Audit Committee will consider, in light of all of the facts and circumstances it deems relevant, whether the transaction is fair and reasonable to us.

TFMG LLC and Walnut Hill Media LLC, entities affiliated with the family of Messrs. J.S. Tisch, A.H. Tisch and J.M. Tisch, who are the members of our Office of the President, and certain related persons occupy space and utilize certain services and facilities of ours, the cost of which is reimbursed to us. In addition, from time to time Messrs. Tisch and members of their immediate families have chartered our aircraft for personal travel. For the use of our owned aircraft, the charterer pays us at the same rate we charge unaffiliated third parties to charter our aircraft, which rate equals or exceeds our out-of-pocket operating costs. For the use of an aircraft in which we hold a fractional interest, the charterer pays us at a rate equal to our incremental cost. The total amount reimbursed to us in 2008 in connection with the foregoing was approximately \$1,130,000. In addition, we chartered an aircraft owned by a member of the family of Messrs. Tisch on one occasion in 2008. The total cost of this charter was approximately \$16,000.

Mrs. Joan Tisch, mother of Mr. J.M. Tisch, occupies an apartment at the Loews Regency Hotel pursuant to a lease that was approved by our Audit Committee and entered into in 2001. The lease became effective upon the death of her late husband, Preston R. Tisch, our former Co-Chairman of the Board, in late 2005. The rent is set forth in the lease and adjusts upward each year, beginning in 2007, by an amount equal to the increase in the consumer price index during the prior year. Mrs. Tisch separately pays rent for another room at the hotel in an amount that was determined based on an analysis of market rates for comparable extended stay rentals at the hotel. Mrs. Tisch paid the hotel an aggregate of approximately \$761,000 for these rentals in 2008.

Walter L. Harris, a director of the Company and Chairman of the Company's Audit Committee, is an executive officer and shareholder of Tanenbaum-Harber Co., Inc. and certain affiliated insurance brokerage companies (collectively, "T-H"). T-H places surety bond and insurance business, including property, casualty and professional liability coverages, with surety and insurance company subsidiaries of CNA. T-H earns commissions for the business it writes for CNA in accordance with commission schedules that are standard to CNA brokerage contracts of this type. Total commissions earned by T-H in 2008 were approximately \$1,600,000. In addition, CNA provides certain insurance coverages to T-H. The 2008 premiums for these items were approximately \$60,000.

RATIFICATION OF THE APPOINTMENT OF OUR INDEPENDENT AUDITORS (Proposal No. 2)

Our Audit Committee has selected Deloitte & Touche LLP to serve as our independent auditors for 2009. Although it is not required to do so, our Board of Directors wishes to submit the selection of Deloitte & Touche LLP for ratification by our shareholders at the Annual Meeting. Even if this selection is ratified by our shareholders at the Annual Meeting, our Audit Committee may at its discretion change the appointment at any time during the year if it determines that such a change would be in the best interests of us and our shareholders. If our shareholders do not ratify the selection of Deloitte & Touche LLP, our Audit Committee will reconsider its selection. Representatives of Deloitte & Touche LLP are expected to be at the Annual Meeting to answer appropriate questions and, if they choose to do so, to make a statement.

Audit Fees and Services

The following table shows fees billed by Deloitte & Touche LLP and its affiliates for professional services rendered to us and our subsidiaries in 2008 and 2007, by category as described in the notes to the table.

(2) Includes the aggregate fees and expenses for services that were reasonably related to the performance of the audit or reviews of our financial statements and not included under “Audit Fees” above, including, principally, consents and comfort letters, accounting consultations, the audit of employee benefit plans, and due diligence related to potential mergers and acquisitions.

(3) Includes the aggregate fees and expenses for tax compliance and tax planning services.

(4) Includes the aggregate fees and expenses for products and services, other than those services described above, related to human capital advisory and other consulting services.

Auditor Engagement Pre-Approval Policy

In order to assure the continued independence of our independent auditors, currently Deloitte & Touche LLP, our Audit Committee has adopted a policy requiring pre-approval of all audit and non-audit services performed by our independent auditors. Under this policy, our Audit Committee annually pre-approves certain limited, specified recurring services which may be provided by Deloitte & Touche LLP, subject to maximum dollar limitations. All other engagements for services to be performed by Deloitte & Touche LLP must be specifically pre-approved by our Audit Committee, or a designated committee member to whom this authority has been delegated. Our Audit Committee, or a designated member, pre-approves all engagements by us and our subsidiaries, other than CNA, Diamond Offshore and Boardwalk Pipeline, for services of Deloitte & Touche LLP, including the terms and fees thereof, and our Audit Committee has concluded that all such engagements have been compatible with the continued independence of Deloitte & Touche LLP in serving as our independent auditors. Engagements of Deloitte & Touche LLP by CNA, Diamond Offshore and Boardwalk Pipeline are reviewed and approved by the independent audit committees of those subsidiaries pursuant to pre-approval policies adopted by those committees.

Our Board of Directors recommends a vote FOR Proposal No. 2.

APPROVE A PROPOSED AMENDMENT TO SIMPLIFY AND UPDATE OUR CHARTER (Proposal No. 3)

Shareholders are being asked to approve a proposal to amend our Restated Certificate of Incorporation, also referred to as our “charter” in this Proxy Statement. The proposed amendment is intended to update our charter to reflect our simplified capital structure following the exchange of all outstanding shares of our Carolina Group tracking stock and to simplify our charter by removing unnecessary provisions. It is summarized below.

In June 2008 we exchanged all outstanding shares of our Carolina Group tracking stock for shares of Lorillard, Inc. Consequently, there is no longer a Carolina Group and no shares of Carolina Group stock are outstanding. In an effort to reflect this simplified capital structure, the proposed charter amendment would eliminate all provisions relating to the Carolina Group and Carolina Group stock, as well as all provisions relating to the allocation between Common Stock and Carolina Group stock of dividends and distributions, because these concepts are no longer applicable. The adoption of this proposal would have no effect on our authorized and outstanding Common Stock.

The corporate purpose clause currently set forth in our charter was originally adopted in 1969. It provides that we may engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware. Consistent with the practice at that time, the purpose clause also includes additional detailed language. Our Board of Directors believes it would be advisable to remove this unnecessary language while retaining the language in our original charter authorizing us to engage in any lawful business. The adoption of the proposal would have no effect on the operation of our business.

If this proposed amendment to our charter is approved by our shareholders, we intend promptly to file a certificate of amendment to our charter with the Secretary of State of the State of Delaware. The text of the charter provisions as proposed to be amended are set forth on Exhibit A to this Proxy Statement.

Our Board of Directors recommends a vote FOR Proposal No. 3.

SHAREHOLDER PROPOSAL

We have been advised that the shareholder proposal described below will be presented at the Annual Meeting. For the reasons set forth below, our Board of Directors recommends a vote against this proposal.

SHAREHOLDER PROPOSAL RELATING TO CUMULATIVE VOTING (Proposal No. 4)

Evelyn Y. Davis, 2600 Virginia Avenue, N.W., Washington, D.C. 20037, owner of 732 shares of our Common Stock, has notified us in writing that she intends to present the following resolution at the Annual Meeting for action by our shareholders:

“RESOLVED: That the stockholders of Loews, assembled in Annual Meeting in person and by proxy, hereby request the Board of Directors to take the necessary steps to provide for cumulative voting in the election of directors, which means each stockholder shall be entitled to as many votes as shall equal the number of shares he or she owns multiplied by the number of directors to be elected, and he or she may cast all of such votes for a single candidate, or any two or more of them as he or she may see fit.

“REASONS: Many states have mandatory cumulative voting, so do National Banks.

“In addition, many corporations have adopted cumulative voting.

“Last year the owners of 125,784,540 shares representing approximately 26.7% of shares voting, voted FOR this proposal.

“If you AGREE, please mark your proxy FOR this resolution.”

Our Board of Directors recommends a vote AGAINST Proposal No. 4.

Our Board of Directors believes that the present system of voting for directors provides the best assurance that the decisions of our Board will be in the interests of all shareholders, rather than those of any particular group. Cumulative voting could make it possible for a special interest group, which may not represent the interests of all shareholders, to

elect one or more directors beholden only to that special interest group. The aims of such special interest group may be adverse to us and our shareholders as a whole and therefore could impede our Board's power to act on our behalf and on behalf of all of our shareholders. Furthermore, our Board believes that cumulative voting may interfere with the continuing efforts of our Nominating and Governance Committee to develop and maintain a diverse Board of Directors comprised of individuals with the wide range of knowledge, experience and expertise necessary to best serve us. Accordingly, our Board of Directors recommends a vote against this proposal.

OTHER MATTERS

We know of no other matters to be brought before the Annual Meeting. If other matters should properly come before the meeting, proxies will be voted on such matters in accordance with the best judgment of the persons appointed as proxies.

We will bear all costs in connection with the solicitation of proxies for the meeting. We intend to request brokerage houses, custodians, nominees and others who hold our voting stock in their names to solicit proxies from the persons who beneficially own such stock, and we will reimburse these brokerage houses, custodians, nominees and others for their out-of-pocket expenses and reasonable clerical expenses. We have engaged Innisfree M&A Incorporated ("Innisfree") to solicit proxies for us, at an anticipated cost of approximately \$8,500. In addition to the use of the mails, solicitation may be made by Innisfree or our employees personally or by telephone, facsimile or electronic transmission.
