NEWS RELEASE

**LOEWS CORPORATION REPORTS NET INCOME OF
\$230 MILLION FOR THE SECOND QUARTER OF 2018**

NEW YORK, July 30, 2018—Loews Corporation (NYSE:L) today reported net income for the three months ended June 30, 2018 of \$230 million, or \$0.72 per share, compared to \$231 million, or \$0.69 per share, in the prior year period. Net income for the six months ended June 30, 2018 was \$523 million, or \$1.61 per share, compared to \$526 million, or \$1.56 per share, in the prior year period. The increased earnings per share for the quarter and year to date periods reflect share repurchase activity in 2017 and 2018.

Net income for the three months ended June 30, 2018 was essentially unchanged from the prior year period, as lower earnings at Diamond Offshore Drilling, Inc. and CNA Financial Corporation were offset by improved results from the parent company investment portfolio and higher earnings at Boardwalk Pipeline Partners, LP and Loews Hotels & Co. Net income for the six months ended June 30, 2018 decreased slightly as compared to the prior year period due primarily to lower earnings at Diamond Offshore.

Book value per share increased to \$59.72 at June 30, 2018 from \$57.83 at December 31, 2017. Book value per share excluding accumulated other comprehensive income (AOCI) increased to \$61.69 at June 30, 2018 from \$57.91 at December 31, 2017. The increase in book value per share is primarily attributable to the commitment to purchase Boardwalk Pipeline common units not already owned by the Company.

Three Months Ended June 30, 2018 Compared to 2017

CNA's earnings decreased slightly mainly due to lower realized investment results and increased costs associated with the transition to a new IT infrastructure service provider. This was offset by an improvement in underwriting income generated by the core property & casualty business over the prior year due to the lower corporate tax rate from the Tax Cuts and Jobs Act of 2017 (the "Tax Act"). An increase in earned premium also contributed to the bottom line. Net investment income also benefited from the lower tax rate as well as improved performance of limited partnership investments.

Diamond Offshore's results declined due to lower revenue given the continuing depressed market conditions, which impacted both rig utilization and average daily revenue. Asset impairment charges of \$12 million and \$23 million (after tax and noncontrolling interests) were recognized in the three months ended June 30, 2018 and 2017.

Boardwalk Pipeline's earnings increased over the second quarter of 2017, which included a \$15 million loss (after tax and noncontrolling interest) on the sale of a processing facility. Additionally, results in the second quarter of 2018 benefited from a lower corporate tax rate booked at the Loews level due to the Tax Act. Partially offsetting these positives were reduced transportation revenues resulting primarily from contract restructuring and lower transportation rates due to contract expirations.

Loews Hotels & Co's earnings increased due to improved results at several owned hotels, primarily the Loews Miami Beach Hotel, slightly higher earnings at joint venture properties and the lower corporate tax rate.

Income generated by the parent company investment portfolio increased primarily due to improved returns on limited partnerships, equity securities and cash, together with the lower corporate tax rate.

Corporate and other results improved in 2018 on a pretax basis due to the absence of transaction expenses incurred in 2017 related to the acquisition of Consolidated Container Company LLC and lower corporate expenses. Net income for Corporate and other in 2018 was negatively impacted by the lower corporate tax rate, which resulted in a reduced tax benefit as compared to the prior year period.

Six Months Ended June 30, 2018 Compared to 2017

CNA's earnings increased primarily due to improved underwriting results and increased net investment income driven by premium growth and the lower corporate tax rate, partially offset by lower realized investment gains and costs associated with the transition to a new IT infrastructure service provider.

Diamond Offshore's earnings decreased primarily due to the reasons discussed above, partially offset by a favorable adjustment in 2018 to an uncertain tax position recorded at year-end 2017 related to the Tax Act.

Boardwalk Pipeline's earnings increased primarily due to the reasons discussed above.

Loews Hotels & Co's earnings increased primarily due to improved operating performance of joint venture properties and improved results at several owned hotels, primarily the Loews Miami Beach Hotel. The lower corporate tax rate also contributed to the year-over-year improvement.

Results in 2017 included a \$10 million net pretax gain on the sale of a joint venture property and the impairment of an investment in another joint venture.

Income generated by the parent company investment portfolio increased due to improved returns on limited partnership and short-term investments, together with the lower corporate tax rate. These increases were partially offset by lower performance of equity securities.

Corporate and other results improved before income tax due to the reasons discussed above. The lowering of the corporate tax rate resulted in a slight deterioration in Corporate and other after-tax results in 2018.

SHARE REPURCHASES

At June 30, 2018, there were 316.7 million shares of Loews common stock outstanding. For the three and six months ended June 30, 2018, the Company repurchased 5.8 million and 15.6 million shares of its common stock at an aggregate cost of \$290 million and \$788 million. From July 1, 2018 to July 27, 2018, the Company repurchased an additional 1.0 million shares of its common stock at an aggregate cost of \$49 million. Depending on market conditions, the Company may from time to time purchase shares of its and its subsidiaries' outstanding common stock in the open market or otherwise.

On July 18, 2018, the Company completed the purchase of all of the outstanding common units of Boardwalk Pipeline not already owned by the Company for \$1.5 billion.
